

OBJECTIVE

Detail-oriented software testing fresher with hands-on knowledge in Manual and Automation Testing (Selenium, Java, TestNG). Seeking an entry-level QA-role to apply testing skills and contribute to software quality.

TECHNICAL SKILLS

Testing: Manual Testing and Automation Testing

Tools: Selenium WebDriver, TestNG, Maven

Concepts: SDLC, STLC, Test Case Design, Bug Life Cycle

Programming Languages: Java

Database: MySQL

INTERNSHIP

SOFTWARE TESTING INTERN [TRAINING PROJECT EXPERIENCE] [QSPIDERS] [CHENNAI]

- Built automation scripts for web applications using Selenium WebDriver.
- Developed and executed test scripts using TestNG framework.
- Identified web elements using XPath, CSS selectors, and ID locators.
- Performed regression and functional testing on application modules.

TRAINING

SOFTWARE TESTING TRAINING [QSPIDERS] [CHENNAI]

May 2025-March 2026

- Learned Manual Testing and Automation Testing.
- Worked with Selenium WebDriver using Java.
- Created test scripts using TestNG framework.
- Gained a comprehensive understanding of SDLC and STLC Processes.

EDUCATION

B.Tech - Information Technology

2021-2025

CGPA: 6.8

Hindusthan Institute of Technology - Coimbatore

PROJECTS

[Login Automation Framework] (Login Module)

GitHub Link: <https://github.com/kbkabil245>

Tools: Java, Selenium WebDriver, TestNG, Maven, Page Object Model (POM).

- Architected an automation framework for Login using Selenium, Java, and TestNG with POM.
- Validated successful login flows and implemented a Screenshot Utility to automatically capture browser states on test failures for improving debugging efficiency.
- Utilized Explicit waits and Assertions to handle dynamic elements and ensure high script reliability.
- Managed project dependencies and build configuration using Maven.
